

City of Moraine
Flooring Improvements for Payne Recreation Center

Addendum #1
June 4, 2015

1. On the first floor, please leave the wall tile in the entryway between the double doors.
2. Include tiling for the front base of the check-in desk (first floor).
3. In meeting room 103, the first room by the area by the stairwell is unmarked for a flooring selection. It should be type **FI-7**.
4. In utility 104, please include flooring type **FI-5**.
5. In the walk-off entryway carpet area, please place new product over the existing tile – use a leveling compound to even out the lowered floor space.
